Sustainability Agenda 2016-2020

“Courage, connection, and openness”

Towards a challenging vision of leadership for Radboud University

Personal leadership

- Responsibility and accountability.

Supervising a team

- Motivate, inspire, and stimulate team members. Set the right example.
- Have the courage to confront resistance.

Broader academic perspective

- The leader is aware of broader academic, organisational, and social ties.
- Leaders to lead by example

Question 1

- Should we be allowed to ask our managers to stop commuting with classic cars and ask them travel in a more sustainable way?

Question 2

- Should managers be allowed to call their employees to account when they commute with polluting classic cars?

Question 3

- Is it appropriate to limit the number of flights our scientific staff should take?
- Should we advise them to take alternative means of transport?

Thank You
